

## **SAFETY RECALL NOTICE 2024-164**

**To: All Grand Design RV Dealers**

**3/25/24**

Grand Design has determined a safety defect exists in certain **2021** through **2024 Grand Design Momentum** and **Solitude** fifth wheel vehicles equipped with CURT by Lippert Components 7k & 8k axles. Accordingly, a recall to address this issue is being initiated effective 3/27/24.

Affected vehicles include **2024 Grand Design Momentum and Solitude recreational fifth wheel vehicles manufactured between July 10, 2023, and November 2, 2023**. The VIN range of affected units is:

<b>Solitude FW</b>	<b>573FS4422RAA16324</b>	<b>to</b>	<b>573FS4423RAA17255</b>
<b>Momentum FW</b>	<b>573FM3820RBB01445</b>	<b>to</b>	<b>573FM4233RBB01964</b>

The defect involves over torqued U-bolts on CURT by Lippert Components 7,000 pound and 8,000 pound axles. On certain RV trailers, the U-bolts that attach the axles to the suspension may have been over-tightened. As a result, an axle could slide back on the leaf spring. This could cause poor handling and lead to a loss of control. A loss of control could create the risk of a crash.

Owners of affected vehicles will be notified of this recall by mail. A copy of the Owner Notification Letter is attached as well as detailed repair instructions and a VIN list of your affected units. Also attached are the claim filing instructions associated with this recall action.

Should you have any questions or concerns, please contact Grand Design Technical Support at 574-825-6264 or 888-825-2820 and select the phone prompt for "Recall".

Respectfully,  
GRAND DESIGN RV, LLC
