IMPORTANT SAFETY RECALL

This notice applies to your 2014 Grand Design Momentum______, VIN __________________

August 18, 2014

Dear Grand Design RV Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Grand Design RV has decided that a defect which relates to motor vehicle safety exists with the “Correct Track” suspension system installed on your recreational vehicle.

Why is a recall being Conducted?

Under heavy load or in rough terrain conditions, the “Correct Track” bolt that aligns the axle spring assembly in the frame hanger could shear. Vehicles manufactured between June 24, 2013 and March 21, 2014 may contain the defective bolt. Your Momentum falls within the serial number range of affected units. If the “Correct Track” bolt shears and the spring detaches from the frame hanger the potential exists for loss of control of the vehicle which could result in a crash, creating the possibility of for injury or death.

What are we doing about the problem?

Our supplier has provided us with replacement bolts to correct this issue. Stock quantities are readily available. Grand Design dealers have been notified of this recall and have the required repair instructions available. Repair is estimated to take no more than 1 hour. There will be no charge for this service.

!IMPORTANT!

- Your Momentum Toy Hauler falls within the recall population.
- You should avoid extended travel under heavy load or over rough terrain until your Momentum has been inspected & repaired.
